Reducing college tuition prices to make college more affordable and accessible and prevent large amounts of student debt.

IN THE SENATE OF THE AMERICAN LEGION BOYS NATION

Mr. Omev of Alaska submitted the following resolution;

RESOLUTION

Reducing college tuition prices to make college more affordable and accessible and prevent large amounts of student debt.

Whereas The cost of college tuition and fees in the United States has risen faster than the rate of inflation, making higher education increasingly unaffordable for many Americans. This has resulted in a significant burden of student debt and a lack of access to higher education for many deserving students who cannot afford to pay for it.

Whereas College degrees are essential for high-paying jobs, and it's becoming more difficult for people to get the education they need to succeed. It's essential to address this issue to ensure that everyone has an equal opportunity to succeed, regardless of their financial situation.

Whereas Lowering college costs would increase access to higher education, allowing more people to get the skills they need to succeed in the workforce. It would also reduce the burden of student debt.

Resolved, That the Senate

(1) Should increase public funding for public universities and community colleges. (2) Increase

financial aid programs to help students afford college. (3) Work with colleges and universities to find ways to reduce costs without sacrificing the quality of education.
